Grunty Fen 1 Mile Fun Run, 11 September 2011

Notes

The course was over two laps, all on grass.

It was measured as 1 mile using a surveyor's wheel.

Number 648 was recorded twice. It looks like one of these should have been 638. Hence the times for 638/648 may be the wrong way round.

The finishing positions of some of the runners who finished after one lap was not recorded.

The first 15 results and times appear correct, but after that the recorded results and times went a bit awry (44 numbers recorded and 47 times). I have matched these up as best I could starting from the end and working backwards, so consider anything after 15th place as being a rough guide to finishing places and times. The extra times are 9:47, 10:08 and 10:09, which may belong to some of those without a recorded position.
